WEDNESDAY, Aug. 15-P. M. Gold closed at 1514, after selling at 1524, under rumors hat 5-20s had fallen in London to 65; and that war Parife takes \$51,000 in specie, but none goes from Bos

Government stocks are all higher, with an increase of business. Sixes of 1881 rose \$, old 5-208 \$, and new \$ a \$ per cent. The 10-40s sold at | w| premi-um, and 7-30 at 105 | @ 105 | . In State stocks, Railway mortgages and Bank shares no important changes. The small stocks were genefally lower. Spruce (Gum) Hill Coal Co. sold at 42. The Railway share market did not respond to the expected case in money after the 26th, and sellers were in the ascendant. The successful bulls of the past few weeks having put their stocks off at a handsome profit, are not disposed to buy them back in the face of decreasing traffic and desponding trade reports. After the call prices rallied upon the share list, but there was no large buying. Government stocks were an exception, and for 6s of 1881, 110; was saked; for new 5-20s 107 was bid, and for old 1094; 10-40 Coupons rose to 1004@100], and 7.30s to 1054@1054. At the Second Board the market was steady at a slight im-provement in prices. After the call the market was strong. Western Union Telegraph was very active, selling at 58%. The market closed firm at quotations: Onio and Mississippi, 29@294; Boston Water Power, 29@294; Cumberland Preferred, 47 ± 47 ½; Quicksilver, 50 ½ ± 51 ½; Mariposa, Preferred, 26 ½; Western Union Telegraph, 58 ½ ± 59; New-York Central, 1041@105; Erie, 691@69; Hudson River, 119@119; Reading, 1141@1141; Michigan Southern, 851@85; Illinois Central, 122@122j; Cleveland and Pittsburgh, 87@87; Cleveland and Toledo, 1151@116; Rock Island, 1057@106]; North-Western, 357@36; do. sale. Annexed are the particulars of this and last month's sale, with accrosed interest thereon to the time of presentation between this date and Angust 26, and that after the latter date interest will cease on such certificates.

If McCulton, Secretary of the Treasury.

This notification does not affect the Cleening House certificates, \$50,000,000, and makes the amount to be paid of \$60,000,000, and makes the amount to be paid of \$60,000,000, and makes the amount to be paid of \$60,000,000, and makes the amount to be paid of \$60,000,000, and makes the amount to be paid of \$60,000,000, and makes the amount to be paid of \$60,000,000, and makes the amount to be paid of \$60,000,000, and makes the amount to be paid of \$60,000,000, and makes the amount to be paid of the temporary loan is another step in earnest tow and recomption. It is expansion for the moment, but through the case in money it is sure to produce, funding of the short currency debt will be stimulated and the debt reduced to uniformity. After the temporary loans are paid the Treasury will have nearly a full year before the principal of any of the currency debt will mature. In June 1863, about \$7,500,000 of compounds fail due, and in July and August \$7,500,000 of compounds fail due, and in July and August \$7,500,000 of compounds fail due, and in July and August \$7,500,000 of compounds fail due, and in July and August \$7,500,000 of compounds fail due, and in July and August \$7,500,000 of compounds fail due, and in July and August \$7,500,000 of compounds fail due, and in July and August \$7,500,000 of compounds fail due, and in July and August \$7,500,000 of compounds fail due, and in July and August \$7,500,000 of compounds fail due, and in July and August \$7,500,000 of compounds fail due, and in July and August \$7,500,000 of compounds fail due, and in July and August \$7,500,000 of compounds fail due, and in July and August \$7,500,000 of compounds fail due, and in July and August \$7,500,000 of compounds fail due, and in July and August \$7,500,000 of compou were understood to have been converted at New-York to-day. Assuming that the 7.30s will all go into 5-20 bonds, the Treasury, after paying \$08,665,469 of temperary loans, will have nothing in the way of resumption but the compounds notes, \$156,012,140, and these tan be got into bonds whenever the Department chooses to leane an absolute 20-year security in exchange for them. \$400,000,000 of plain greenbacks, and \$26,684,000 of frac. tional currency, the resumption of specie payments will be an casy process. From the facts given it will be seen that the return to specie payments, so much to be desired, is not possibly early in the year. The people seem disposed to exchange their 7.30s for \$-20 bonds, and that done, secure an early return to specie payments. The Treasury, under its present policy, secures an easy money market, but it should not tempt people with long engagements but

teach them to temper their enterprise with great prudence. Freights are dull; the engagements to Liverpool are 7,000 bush. Corn at 4id., and per steamer, 2,000 boxes Cheese at 22s. 6d., and 1,000 bales Cotion at 1@5-16d.the inside price for Compressed. To London, 150 tuns Oil cake at 15s.

The tener of the accounts this week are more favorable for the eror. The worms do not appear to have done any mis-chief in Texas. From New Orleans we get the least favorable accounts. From Alabama, Georgia and Tennessee, the ac-counts are decidedly more favorable. I have only to repeat the assertion that the extent of the crop is still in the future, and that all estimates are mere guess work and entitled to no consideration.

Start quote at 16 1c. for powdered, granulated and crushed; 16c. for white A; and 13 1c. for yellow C.

NAILS—The supply of Cut is light, and prices are firm at 6;27c; Clinoch at 22c; e. Ferged Horse is selling at 32c, which is lower. Comper at 50c, and Zinc at 20c.

NAVAL STORES—The arrivals of Spirits Turpentine have been more liberal, but as there was but a small stock on hand no concession was submitted to; in fact, the market is as well supported as hast week; there has been a fair business, in part for export, closing steady. Crude Turpentine is a little off and is dull; stock about 1,000 bbls. Common Rosin has been offered more fully and has declined and closes dull, but Fine do, ruled quite firm under a fair demand. Tar has ruled steady with a moderate business; stock, 5:200 bbls. We quote: Turpentine, North County.
